

LPMA Applicable Products List (Colorado)

The LPMA will manage all petroleum and petroleum related product packaging up to and including 15 gallons, including oil -based lubricants, grease, antifreeze, engine additives, and other fluids typically used in transportation and mechanical applications and where these containers are often comingled with oil and antifreeze containers at generator sites.

Some common types of petroleum and petroleum related containers and packaging include rigid bottles (e.g., quart, gallon, etc.), pails (e.g., five-gallon buckets), multi-layer tubes and cartridges, and bag-in-box (e.g., 3- or 5-quart fluid-filled bags inside of a cardboard box) and aerosols. Materials used in packaging contain a range of materials including, but not limited to high-density polyethylene (HDPE), polypropylene (PP), polyethylene (PE), metal, cardboard, paper, and other constituents.

The following list of included products has been developed in coordination with Circular Action Alliance as the first part of a required Coordination Agreement.

Included Products

2-cycle engine oil	dripless lube
3 in 1 oil for household / garage	electrical insulating oil
aerosol propelled lubricant	emulsified oil
agricultural spray oil	engine conditioners
anti-seize lubricant	engine degreaser
brake fluid	engine oil
chain oil	engine sealers
circulating oil	ethylene glycol engine coolant
cleaning flushing fluids for motors/equipment	ethylene glycol heat transfer fluid
compressor oil	food grade white mineral oil
conveyor lube	form release oil
crankcase oil	fuel boosters
dedusting oil	fuel system cleaners
diesel exhaust fluid (DEF)	fuel/oil stabilizers
diesel fuel treatment	fuel-line de-icing fluid
drawing, stamping, and shaping oil	gasoline/2 cycle engine oil mixes

gear oil	power steering fluid
glycol-based heat transfer fluid	process oil
grease	propylene glycol engine coolant
gun oil	propylene glycol heat transfer fluid
hydraulic fluid	quenching oil
hydraulic jack oil	refrigeration system oil
hydraulic oil dye	re-refined oil
lock de-icing fluid	rock drill oil
lubricants	rustproof oil
machine tool and slideway lubricant	saw guide oil
marine cylinder oil	sewing machine oil
marine engine oil for vessels operating domestically	silicone heat transfer fluid
metal working oil	silicone lubricant
mineral heat transfer fluid	solvents
natural gas compressor oil consumed in use	synthetic aromatic hydrocarbon heat transfer fluid
natural gas compressor oil not consumed in use	synthetic crankcase oil
oil additive	textile oil
oil treatment	transmission fluid
paper machine oil	turbine oil
parts degreaser	vacuum pump oil
penetrating oil	vegetable oil for lubrication
petroleum crankcase oil	water glycol hydraulic fluid
phosphate ester hydraulic fluid	windshield washer fluid
pneumatic system oil	winter start fluid
polyglycol synthetic compressor oil	wire pulling lubricant
polyolester fluids
