NOTICE OF INTERCHANGE 360 PLANNING FEE CHANGES

October 29, 2026

Dear Registered Producer,

In accordance with our Fee Setting Policy, Interchange 360 would like to provide advanced notice to registered producers of upcoming fee changes. It is our goal and commitment to the industry to provide as much advance notice as possible to help producers prepare for the coming changes. Fees/Dues are reviewed and recalibrated on a regular basis to reflect any changes to program costs, operations, and use the best available data.

The changes to planning fee outlined below were made to better reflect the true costs and operations in each state. Planning fees provide advance funding for state program development that is necessary ahead of the program start date and collection of implementation fees. Each determination was made according to state direct expenses and allocation of indirect expenses based on resources required at the current phase of program development, along with the estimated volume of covered products being sold in the state by producers participating in the planning stage.

CALIFORNIA
